UTA Truck Lease

Part of the PEAC Finance network

Shaping the future together

We understand your business as an SME operating in the transport and logistics sector and we know the challenges you face on a daily basis. Nowadays, transport links and business relationships extend across Europe, which means solutions need to be cross-border too.

We are ideally placed to help, whether you want to order five new trucks for your subsidiary in Poland, need ten trailers with the appropriate registration for a customer in UK or are expanding into France and Hungary.

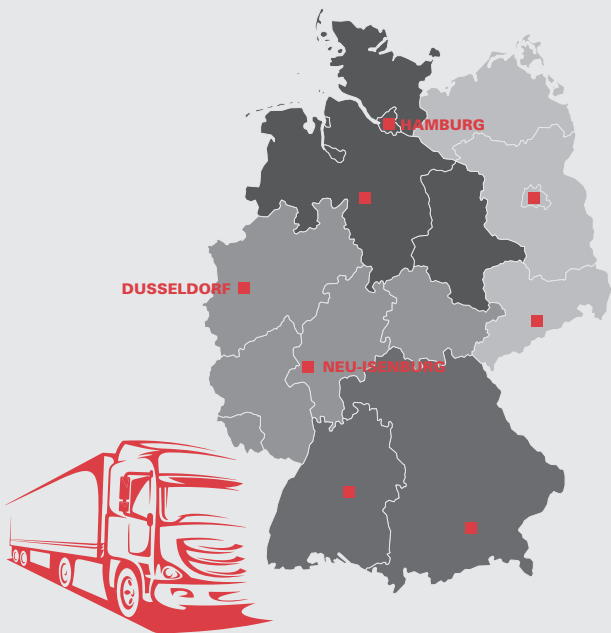

Customised financing solutions throughout Europe

UTA Truck Lease offers customised financing solutions across Europe for new and used commercial vehicles. As experts in the transport and logistics sector, we provide supportive, solution-oriented advice backed by the necessary industry knowledge, and without being tied to any particular manufacturer.

We have been a member of the PEAC Finance network since 2015 with strategic footholds across Europe and would be delighted to leverage our new connections for your benefit.

You can continue to rely on our products and services, as before. Quick decisions and efficient processes are all part of our service.

UTA Truck Lease GmbH is part of the PEAC Finance network. It acquires financing customers for commercial vehicles and similar assets on behalf of the Group and acts as the intermediary.
